Magento 2 Display Category on home page extension.

The Category with Image extension enables the display of parent categories with images and names on the home page, with a redirect link to the relevant category.

Node Solutions' free extension is designed for easy use, with simple installation and configuration processes. This allows integration into your existing Magento 2 store without requiring extensive technical knowledge.

Features: -

➔ You can enable or disable extensions.

➔ You have the ability to add a category title and description.

➔ Set the category view count according to your needs.

➔ Choose between grid view or slider from the admin.

➔ Adjust category image height and width in the backend.

Configuration: -

1. General

- Enable: - Enable the extension from here.

2. Category Title

- Category Title: - Please enter the title of the category here.
- Category Description: - Please enter the description of the category here.

Home page Categries

The description of the categories on the home page appears appealing to customers.
